TRANSMITTAL LETTER ACCOMPANYING FLOPPY DISC

Submitted with the above-referenced application, is a floppy disc containing a computer-readable Sequence Listing in a text file entitled: P10138-SEQ.txt. This disc is IBM-PC and Windows compatible. The size of the text file is 124 KB.

This disc is labeled with the named inventors and was created on June 16, 2005, from a file created: _____.

Accompanying this letter are copies of a request from the European Patent Office in PCT/EP2003/014756 requesting a corrected computer-readable sequence listing and the response of the European patent attorney furnishing the computer-readable sequence listing together with her statement verifying that the information recorded in computer-readable form is identical to the written sequence listings and does not go beyond the disclosure in the PCT application as filed. The accompanying floppy disc is a copy of the computer-readable sequence submitted to the European Patent Office in the PCT application.

No new matter is added.

Respectfully submitted,

20575

Refer: International application no. PCT/EP 03/14756
Your ref.: XE12EPC-5902

Dear Ms. Fleuchaus,

Thank you very much for your letter dated March 14, 2004. Unfortunately, according to our verification the Sequence Listing on electronic medium (diskette) and the Sequence Listing on paper does not comply with the WIPO ST 25.

Namely, we observed that SEQ.ID.NO. 73-108 are not included in the Sequence Listing.

The applicant is herewith invited to file a complete Sequence Listing on paper and in computer readable form, accompanied by the appropriate statements.

Relating to this, we remind you that if these requirements are not met or not met in due time, the EPO does not perform the international search where a meaningful search cannot be carried out (Rule 13^{ter}.1(c)PCT). In this case the international search report is replaced in full or in part by the statement under Article 17(2)(a)(ii)PCT.

Moreover Rule 13^{ter}(f) prescribes that a subsequently filed sequence listing, which is not a correction within the meaning of rule 26.4 PCT and which is not a rectification within the meaning of Rule 91.1.PCT of a sequence listing, shall not form part of the international application. In accordance herewith, the furnishing of a subsequently filed sequence listing does not give rise to an opportunity either to amend the description, claims and figures with a view to refer to said subsequently filed sequence listing or add it to the application as originally filed. The subsequently furnished listing will therefore normally not be forwarded to the international Bureau for publication purposes.

Concerning above mentioned application, we herewith kindly remind you that the ISA expects to receive the requested documents before September 20, 2004.

Should you not be able to send us the sequence listing, please let us also know your response in the best delays.

Please send sequence listing in computer-readable form to the European Patent Office, preferably to the branch of The Hague.

Yours faithfully

Nina Vercio
